

Quarterly Customer Feedback Summary

1st January 2017 – 31st March 2017

Introduction

At Bath & North East Somerset we value our customers and their feedback so we closely monitor all the compliments, comments and complaints that we receive and use the information gained to improve the services that we provide. This process is managed through the Council's Customer Feedback Procedure (details available on the [Council's website](#)).

Customer feedback may include:

- General feedback and suggestions for improvement
- Reports about service failure
- Compliments about good service
- Complaints

We work hard to avoid and minimise complaints but, where they do occur, our procedure defines that they are fairly and courteously treated, reflecting best practice both for the customer and the Council.

This report gives a corporate overview of the customer feedback that has been received and responded to in the past quarter, and notes any key actions or considerations that have resulted from a high level review.

Our Service Teams, responsible for specific services delivered by the Local Authority, handle their own customers' feedback cases and provide quarterly updates on trends, issues or changes that the service is undertaking as a direct or partial result of the feedback they have received. Some of the key outcomes of that feedback are detailed in the "You said / We did..." section of this quarterly summary report, compiled directly from the Customer Feedback Officers (CFOs) responsible for each service area.

Period of this report: Quarter 4 2016/17 (January – March 2017)

Exclusions

Some service areas have mandatory or legislative routes for formal complaints. The main areas excluded are: Complaints about Councillors or individual schools, Adult Social Services, Children's Services, and matters over which the Council has no legal authority or powers of action. These complaints are therefore excluded from the corporate process and this report; more information is available from the service directly or on the [Council's website](#)

‘Corporate’ is used where the complaint does fall within the remit of the Council’s complaints process.

Stage 2 requests during the period

For escalating complaints, Stage 2 provides the opportunity of another Service investigating the complaint by undertaking an independent review. However, before a Stage 2 review is agreed, Customer Services assesses the Stage 1 investigation to ensure that all matters raised in the original complaint have been comprehensively and accurately addressed, and if not, may refer it back to the Service to ensure this now happens. In so doing we aim to determine:

- if the complaint may be resolved by further Stage 1 consideration by the Service, or;
- if a Stage 2 investigation is appropriate, or;
- whether the customer would be better served by referring their complaint direct to the Local Government Ombudsman (LGO), for example if the Service has fully sought to resolve the issue and a Stage 2 review is unlikely to change the position, such that effectively the Council complaints process has been fully exhausted and any further review by the Council would cause unnecessary delay.
