

**Bath and North East Somerset Council are proposing to change the Public Rights of Way network in respect of Public Footpaths (“FP”) CL7/9 and CL7/10 in the Parish of Compton Martin**

The general effect of the proposal is shown on the above plan.

The section of FP CL7/9 commencing from point A on the plan proceeding a generally north-easterly direction to point C, via point B, would be extinguished, as shown on the plan by a continuous red line.

The new line of FP CL7/9 would commence from point A, proceeding in a generally north-easterly direction to point E, via point D, as shown on the plan by a continuous green line.

The section of FP CL7/10 commencing from point F on the plan proceeding a generally northerly direction to point H, via point G, would be extinguished, as shown on the plan by a continuous red line.

The new line of FP CL7/10 would commence from point F, proceeding in a generally northerly direction to point H, via point J, as shown on the plan by a continuous green line.

These changes are proposed in the interests of the landowner as they would record the routes that have been walked by the public since the drainage ditches, connected to Chew Valley Lake, were built on the land.

The changes would be achieved by way of a diversion order made under section 119 of the Highways Act 1980 ('the Act'). The new path would be created without any limitations, however the proposed new footpaths would cross field boundaries into land currently used to rear livestock. It will therefore be necessary to authorise pedestrian gates at points D & E on the attached plan, under section 147 of the Act, to prevent the ingress and egress of these animals.

If you have any comments regarding the above proposals, please ensure that they are received by the Public Rights of Way team **no later than 9 May 2019**. If you require further information please contact me on 01225 477649.
