Guidance Notes

The visibility splay is a line drawn from a point 2.4 metres back from a minor road stopline to the nearside kerb of the major road in both directions. This distance along the major road where the line intersects is based on the speed conditions of the major road. Any space within the resulting two triangles must remain free of any obstruction above 1.005 metres.

For our indicative illustration we have used the maximum 85th percentile speed for all of the days surveyed, and rounded it to the nearest speed given for required visibility distances.

These are for indicative purposes only and Intelligent Data are not liable for any losses from advice, or follow-on work, including design of infrastructure using this information.
