

**Inspector Note regarding BNES/56**

You will recall that at the hearing on 26 March the Council accepted that the 5 year housing supply should be calculated on the basis of the overall intended provision of 13,000 dwellings rather than separately for market and affordable housing. The Council undertook to set out the changes this would require to the proposed modifications previously published. I indicated that participants at the hearing would have the opportunity to comment on the suggested changes.

The changes are set out in BNES/56, Appendix 1. This also makes some other changes consequential to the Council's position at the hearing.

Comments are therefore invited on the suggested changes in Appendix 1. Comments should focus on whether the suggested changes would properly put into effect the Council's position, and not repeat more fundamental differences between the parties discussed at the hearings.

Any comments should be received by the Programme Officer by 5pm **Tuesday 6 May 2014, one electronic copy and 2 paper copies.** (The rest of BNES/56 covers matters that needed addressing after other hearings and is not for general comment)."

**Simon Emerson**

**Inspector**
