Subject: RE: BANES Core Strategy - Rollin Changes

Dear Chris

With regards to my feedback on the "Rolling Changes" proposed by B&NES Council, I would like to object to the Council's proposed preferred option regarding the wording of the Council's support for an arena neighbouring the Central Area. Proposed Change Ref 16 (policy B1, section 8) – Explanatory Notes:Page 27 Rolling Changes document

This is tantamount to a site specific allocation. The spurious lack of an alternative site (unproven and not consulted on) is not justification for a site specific allocation and is not sound.

The council are contradicting themselves, this new wording certainly is not sound given the legal constraints and lack of sound and rigorous consultation.

I will post my comments too

Regards

Rachael Hushon

Subject: BANES Core Strategy - Rollin Changes

Dear All,

You will have seen my general email on further material published by the Council. The Council's updated Schedule of Rolling Changes, February 2012 (CD6/E2.2.) includes a number of changes relating to the Central Area boundary and the sports stadium/arena, as well as some explanatory notes on the topic at the end of the Schedule. Any comments should be sent to me by 22 February (1 electronic and 2 paper copies please)."

Kind Regards
Chris
