

COLLATED FEEDBACK SHEET

1. Has today been informative about the Placemaking Plan and your potential involvement? Please tick on the scale below.

Not at All	1	2	3	4	5	6	7	8	9	10	Very much
Number of Votes	-	-	-	-	2	2	2	13	7	5	

2. Do you have any outstanding key questions about the Placemaking Plan and the process?

- Still not sure if we will participate to any great extent
- Will need to take back as previous discussions were not very positive
- However clustering with other very small Parish Councils could be a way forward
- I think it is very important to ensure that B&NES gives guidance/proforma of information required so we don't spend time concentrating on areas which are not required.
- Need some more information as to how much influence a PP will have on development decisions, especially at appeal level.
- No, but proforma structure of questionnaires and information B&NES need is essential; also contact point for us to get advice from.
- Some
- How it fits with a NP process that is advanced
- I think I now have a way forward and can make recommendations to PC
- Yes we would like to help but what can we do? Now? In the future?
- Will it still be the case that at the end of the process an expensive QC and Inspector can overrule planning?
- To save each PC reinventing the wheel is there a proforma of a PMP available?
- How can we be assured that this is yet another initiative that will end up as an inhibitor to the development of a viable sustainable community?
- We do not yet know what we will have to do.
- No
- We need to work out how to input to the Placemaking Plan work with B&NES and especially look to cluster with neighbouring parishes.
- No, but we are now reconsidering earlier decisions
- Not at this stage

3. If you did the IMPLICATIONS session, was it valuable to look into some of the practical IMPLICATIONS of getting involved in the Placemaking Plan? Please tick on the scale below.

Not at All	1	2	3	4	5	6	7	8	9	10	Very much
Number of Votes	-	-	-	-	2	4	3	8	3	2	

- Too many individual situations discussed and final questions
- Yes – would like to know more

4. If you did the TOOLKIT TRAINING session was it valuable to look into some of the practical details of the TOOLS you could use? Please tick on the scale below.

Not at All	1	2	3	4	5	6	7	8	9	10	Very much
Number of Votes	-	-	-	-	1	2	2	5	3	2	

- Still other 'kits' I need to know about.

5. Do you value the collaborative approach the B&NES team is aiming to follow? Please tick on the scale below.

Not at All	1	2	3	4	5	6	7	8	9	10	Very much
Number of Votes	-	1	-	-	-	1	1	8	6	14	

- 8 in terms of desire and need, 2 in terms of current execution.
- We have to make this work!

NEXT STAGES

6. Without actually committing for now, which of the tools we have tried out or have mentioned might you and your community be interested in using?

- Too soon to decide
- Some sort of survey but probably OK if collaborative
- Questionnaire guidance
- Traffic in village
- Not sure. Landscape?
- Design Statement preparation
- Site appraisal
- N/A
- Character assessment of landscape/environment
- Site evaluation to guide development discussions
- Produce draft PMP
- Proforma from B&NES
- A/Many questionnaires to choose from/use.

- Yes probably all but too soon to call
- Try talking to us and help in a constructive manner to produce development briefs please.
- I will recommend joining with neighbouring parishes to commit to a placemaking plan and decide at a later stage if a neighbourhood plan is appropriate.
- Local collaboration and working in partnership
- Unfortunately no-one [from our PC] attended the toolkit session.
- All
- Questionnaire on Parish attitudes
- Traffic implications for small villages. Road Safety
- Local landscape character assessment and desktop site assessment
- Watch this space
- Traffic assessment, design statement, character assessment

7. What sort of help and support might you want from the B&NES team to help you?

- Help on how to come up with the right format result. They want our/people's view so long as it isn't against their policy.
- Possibly especially if aimed at the really small Parishes
- Would be useful to have one point of contact for 'clusters' of PC's
- Questionnaire guidance
- Broad help with Neighbourhood Plan / Questionnaire. Wellow is not RA1 – so will probably not be involved in Placemaking – other than any personal interest.
- Proforma Plan
- Proforma for info required by B&NES for Placemaking Plan
- Compiling survey questions and techniques
- Workshops
- Web-links
- To be advised
- Ongoing / already receiving support
- Templates
- Proforma
- Questionnaires from all other areas (so we do not reinvent the wheel)
- See 2
- Supportive constructive proactive planning based on community involvement, we live there, we know what we want. We will not allow our community to deteriorate!
- How do we start please?
- Toolkit and assigned person
- I feel more detail is needed on the collaboration being sought.
- To get a sequence of actions in place (legislative, technical support)
- I would like a proforma which we can adjust if necessary to help us get started
- Questionnaire proforma
- Placemaking Plan initial steps proforma
- Unclear that there is any likelihood of support for RA3 villages/Parishes
- Support for general planning work and in forming a local cluster of parishes
- To be decided after reporting back to Council.
- Structure of Placemaking Plan so that the overall input is cohesive
- Not yet know, see below

8. The team would prefer to run training for groups of parishes rather than for one at a time, so would you be interested in one of these events? Please add any notes in the box (especially to say if you'd like one in your parish/town!) and leave your contact name and email.

- Yes, but need to think about sizes, geography and who gets on with whom
- Yes and useful if done with other parishes with similar issues ie Newton St Loe / Englishcombe rather than larger areas who have different issues ie Keynsham
- Similar RA3 villages in the Green Belt – Englishcombe, Combe Hay etc
- Yes. You are welcome to use Wellow Village Hall if it is useful. It is quite small though
- Yes
- Yes. In process of forming 'Cluster – 37'
- I will recommend to my Parish Council that we get involved in a cluster group and group training.
- Yes please
- Yes
- Yes
- Yes
- Yes
- Yes
- We have had many meetings but for some reason we have all failed to achieve any positive outcomes of significance.
- Consider setting up a Policy/DC/Employment service team per area.
- Yes
- Yes!!
- Yes
- Yes
- Yes, possibly involving Englishcombe, Camerton, Combe Hay and Priston.
- With similar green belt washed over R3 villages ie Englishcombe / Combe Hay.
- There would be potential benefit in B&NES acting as matchmaker for bringing neighbouring Parishes together.
- Yes, maybe by cluster
- Yes, group events are preferred.
- Yes
- Dunkerton has already considered moving forward with adjoining parishes. We will need to ensure that collective will remains after the additional illumination provided by this workshop. I'm sure we would hope so.

Additional Comments

Venue

- Seats very uncomfortable for such a long meeting
- Room not good – auditorium needed or at least tables to lean on.
- A good day – thank you.
- Please could we have chairs that are comfortable.
- The venue is not accessible by public transport (from Radstock etc) and was very cold!
